**Graduated with High Honors**

## Experience

May 2025 – Sep 2025

PELIKAN PRODUCTS

On-site

### Waiter

I gained valuable real-world experience through seasonal work as a waiter, which strengthened my communication skills, teamwork, time management, and ability to perform under pressure in fast-paced environments.

Oct 2024 - Present

Freelancer

Remote

### Freelance Web Developer

As a Freelance Web Developer, I delivered 10+ web projects and led a small team in building and launching my school's official website, coordinating development from start to deployment

Jan 2026 - Present

EdBot

Hybrid

### Founder and Lead Software Developer

Building EdBot, an AI-powered educational platform designed to make learning more interactive, intelligent, and accessible through thoughtfully built software.

## Education

2023 - 2026

Gjergj Kastrioti Highschool

### Highschool Diploma

Completed my high school diploma, where my curiosity for technology and passion for building software first took shape and set the foundation for my journey in development.

2026 - 2029

Polis University

### Bachelor of Computer Science

Pursuing a Computer Science degree to deepen my expertise in software development, AI, and computational problem-solving, and to lay the foundation for building impactful, innovative technology.
